DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel Swayze, Jr. on April 10, 2003.

The application has been amended as follows:

A) Cancel claims 22-26.

2. The following is an examiner's statement of reasons for allowance: The prior art discloses an integrated circuit, a piezo element, a first circuit, a second circuit and a voltage supply. However, the prior art fails to show, in combination with the invention, an integrated circuit for providing a drive signal to a piezo element of a milli-actuator in a mass data storage device with a first circuit for receiving head position control signals and for providing a charging current to a capacitor and a second circuit for mirroring a current in the first circuit at a predetermined mirror ratio to provide drive currents to the piezo element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
